

GUARD RAIL OPTIONS

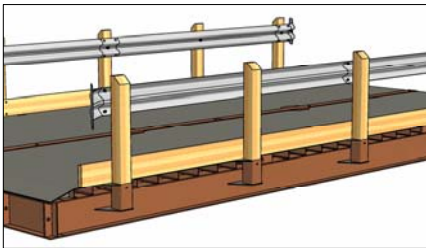

OPTION # 1 - POSTS AND 10" CURB

This option provides continuous protection at a very low level. It helps to prevent any debris that may be sitting on the bridge from falling into the water.

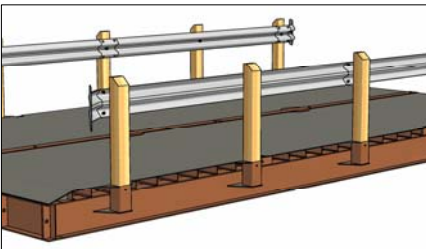

OPTION # 2 - POSTS AND 12" RAILING

This option provides continuous protection at a very low level. There is a space in between the top of the deck and the bottom of the top railing therefore, any debris that may be sitting on the bridge may fall into the water.

OPTION # 3 - POSTS, GALVANIZED RAILING AND 10" CURB

This option helps to prevent debris from falling into the water and provides continuous upper protection.

OPTION # 4 - POSTS AND GALVANIZED RAILINGS ONLY

This option provides continuous upper protection only.

OPTION # 5 - GALVANIZED RAILINGS ONLY - NO WOOD

Many of our customers have access to their own wood and are simply interested in purchasing the galvanized railings to provide upper protection. No wood is supplied in this option.
